HEENAL ASHOK MEWADA

React Developer | Full-Stack Web Developer

7678055069 · mewadaheenal304@gmail.com · LinkedIn · GitHub · Portfolio

PROFESSIONAL SUMMARY

Full-Stack Web Developer skilled in React.js, JavaScript, PHP, and MySQL with hands-on experience building responsive web applications and REST API-based projects. Developed a full-stack expense tracking application with authentication, dashboard analytics, and database integration, along with multiple frontend projects using React.js and Redux. Strong understanding of frontend-backend integration, responsive UI development, and reusable component architecture.

TECHNICAL SKILLS

Frontend	React.js · JavaScript (ES6+) · HTML5 · CSS3 · Bootstrap 5 · Redux · Framer Motion
Backend	Node.js · Express.js · PHP · RESTful APIs · JWT Authentication · Middleware
Database	MySQL · Query Optimization
Tools	Git · GitHub · Vite · Vercel · VS Code · Chart.js

PROJECTS

Expense Tracker | Full-Stack Application

React.js · PHP · MySQL · Chart.js

- Developed a full-stack personal finance application with secure user authentication and transaction management.
- Built a responsive dashboard displaying real-time income, expense, and balance updates.
- Integrated interactive Chart.js visualizations including category-wise and monthly expense analytics.
- Implemented modal-based transaction forms to improve user workflow without page navigation.
- Connected React frontend with PHP REST APIs and MySQL database using normalized schema design for structured data management.

GitHub

Swiggy Clone | React Application

React.js · Redux · React Router

- Built a responsive food ordering application using live Swiggy API integration and reusable React components.
- Implemented Redux-based cart state management with real-time add, remove, and quantity updates without page reloads.
- Built shimmer loading UI for smoother asynchronous data fetching and better perceived performance.
- Added dynamic routing using React Router for restaurant-specific pages and shareable URLs.
- Structured component-based frontend architecture for improved scalability and maintainability.

  Live Demo | GitHub

Personal Portfolio | React · Vite · Framer Motion

React · Vite · Framer Motion · CSS Glass

- Designed and deployed a modern personal portfolio website using React.js and Framer Motion.
- Implemented scroll-triggered animations and interactive UI effects to enhance user engagement.
- Built fully responsive layouts optimized across mobile, tablet, and desktop breakpoints.
- Resolved build and deployment issues for successful hosting on Vercel.
- Applied glassmorphism-inspired UI styling with reusable and responsive component structure.

  Live Demo | GitHub

To-Do List Application

HTML · CSS · JavaScript · LocalStorage

- Developed a CRUD-based task management application with LocalStorage persistence for client-side data storage.
- Implemented task add, edit, delete, and update functionality with instant UI updates.
- Added input validation and inline error handling for improved user interaction.
- Built responsive and lightweight frontend interface without external libraries or backend dependency.

  Live Demo | GitHub

Ice Cream Parlor Website | Frontend Project

HTML · CSS · Bootstrap

- Developed a responsive landing page using Bootstrap grid system and mobile-first design principles.
- Implemented CSS animations, smooth transitions, and interactive UI elements for enhanced visual experience.
- Built responsive layouts optimized across multiple screen sizes and devices.

EDUCATION

B.Sc. Information Technology *2018 – 2021*

D.G. Ruparel College of Arts, Commerce & Science Mumbai

WORK EXPERIENCE

Office Assistant *2022 – Present*

Adventure Education Tours Pvt. Ltd.

- Managed end-to-end travel logistics including bookings, itineraries, and customer coordination with high accuracy.
- Handled client queries and issue resolution with same-day turnaround and consistent service support.
- Developed strong communication, multitasking, and problem-solving skills while working in a fast-paced environment.
- Simultaneously upskilled in React and full-stack web development through hands-on projects and self-learning.
